An injunction was granted on Tuesday against the Directors of the Mariposa Mining Company, restraining them from increasing the preferred stock. A report that an Increase would be made was put in circulation to depress It by parties desiring to replace stock at lower rates than these now current.

The Great Western Road of Canada carned the week ending May 4, an increase of \$4,298. The Marietta and Cincinnati Road showed on the last week in April a gain of

\$5,458. The New-York Central earned in April, 1865......\$1,346,734 | 1866......\$1,246,000 | Dec........\$106,734 The Eric Railway Company corned in April, 1865, including the Buffalo division, about \$1,600,000. Its official statement of traffic will probably be made this week. It is reported as less than that of the New-York Central.

The earnings of the Chicage and North-Western Rail-

way Company for the first week in May Were: The Board of Managers of the Delaware and Hudson Canal Company submit to the stockholders the annual statement of the business of the Company for the year anding March 1, 1866, showing a net profit of \$2,357,839 49, Being a little over 23 per cent of the capital stock. The being a little over 205 per cent of the capital stock.

Secretions of the Company were seriously interrupted by a

strike of the railroad men in the early part of the year, and

the miners in the Summer—the work having been sus
sended in the latter case about 70 days, or fully one-third

as our season of causal navigation. Our respirie was also

largely diminished by the diversion of the business of the Pennsylvania Coal Company to the Eric Railway. In view of these unfavorable circumstances, the result of the year's work will probably not be regarded as unsatisfactory. Believing that the action of the Pennsylvania Coal Company, already referred to, is in violation of their agreement with us, a suit has been commenced in the United States Court for the recovery of toils on the coal wrongfally diverted from our canal. The amount of damages claimed by us for the year alone is over \$600,000. Preparations have been made to bring to market a largely increased supply of coal during the season which has just been opened, and there is no reason to doubt that a ready market will be found for it at remunerative prices.

The following is a statement of the business of the Delawere and Hadson Canal Company for the, year ending March 1, 1865.

The Chicago Tribune of Saturday afternoon says:

Business during the week has been more active than usual, and deposits at the banks have been quite heavy. This has rendered the money market quite easy, and prime produce and mereantile paper is in good demand at 10 per cent per annum. The supply of Eastern Exchange, as compared with the demand, is very light, and the market is firm at par buying and 1-10 premium selling. Round lets were sold moong bankers to-day at a premium of 60c, per thousand.

The Rickmond Whig of the 7th remarks, relative to the Covington and Ohio Railroad Company:
